

# 3<sup>rd</sup> ICGSS INTERNATIONAL CONFERENCE of Graduate School on Sustainability

## Contemporary Studies on Sustainable Development

September 22-23, 2018

Graduate School Building, University of Merdeka Malang  
Terusan Raya Dieng 59 Malang, East Java, Indonesia

### CALL FOR PAPER

The exploration of sustainable development issues is still very open, especially at the regional level. These issues inspired Unmer Graduate Program in a sustainable manner to develop research and teaching. The conference is based on the belief that there are a large number of contemporary studies that are interdisciplinary and in the form of regional case studies in different countries. We need a range of inputs that will be the foundation for the specific study of environmental engineering, sustainable cities, and natural resource management.

The special themes we prepare are based on several issues in economics, and the field of architecture in order to explore the possibilities of interdisciplinary characters. Authors are invited to submit their papers with the following subthemes (but not limited to):

### Subthemes of Natural Sciences

- Architecture for Sustainable Cities and Communities.
- Architecture for Resilient Infrastructure and Sustainable Industrialization.

### 1. INTRODUCTION

Indonesia has a large economic potential, with abundant natural resources, a large population and a large number of young workers. This can be seen from Indonesia's population, which now has 261.1 million people. This is where an opportunity actually arises for new entrepreneurs to take this opportunity in order to achieve an entrepreneurial goal. The growth of Indonesian entrepreneurs in 2016 still very small, Indonesia only has 1.5 percent of entrepreneurs from around 261,1 million residents. Indonesia still needs around 1.7 million entrepreneurs to reach two percent, while in ASEAN countries such as Singapore there are 7 percent, Malaysia 5
