

3rd ICGSS INTERNATIONAL CONFERENCE of Graduate School on Sustainability

Contemporary Studies on Sustainable Development

September 22-23, 2018

Graduate School Building, University of Merdeka Malang
Terusan Raya Dieng 59 Malang, East Java, Indonesia

1 NO POVERTY

The exploration of sustainable development issues is still very open, especially at the regional level. These issues inspired Unmer Graduate Program in a sustainable manner to develop research and teaching. The conference is based on the belief that there are a large number of contemporary studies that are interdisciplinary and in the form of regional case studies in different countries. We need a range of inputs that will be the foundation for the specific study of environmental engineering, sustainable cities, and natural resource management.

The special themes we prepare are based on several issues in economics, and the field of architecture in order to explore the possibilities of interdisciplinary characters. Authors are invited to submit their papers with the following subthemes (but not limited to);

3 CALL FOR PAPER

5 GENDER EQUALITY

Subthemes of Natural Sciences

- Architecture for Sustainable Cities and Communities.
- Architecture for Resilient Infrastructure and Sustainable Industrialization.
- Architecture for Affordable and Clean Energy
- Environmental Engineering for Clean Water and Sanitation.

Subthemes of Economic

- Decent Work and Economic Growth for Economic Sustainability at Global Competition from Development of Tourism, Entrepreneurship, Small and Medium Enterprises;
- Industry Innovation and Infrastructure Supported by Development of Accounting; Banking; Capital Market; Tourism Production and Consumption; Business Management; Marketing; HRM;
- Innovation for Decent Work; SME; Creative Industry; Entrepreneurship.
- Sustainability in Accounting;
- Corporate Governance & Corporate Social Responsibility.

KEYNOTE SPEAKERS

Prof. Madya Dr. Mohd. Zin Bin Kandar
Universiti Teknologi Malaysia
Johor Bahru, Malaysia

Professor Lorne Cummings
Macquarie University,
Australia

Professor Hasan Fauzi
Sebelas Maret University
Surakarta, Indonesia

Professor Respati Wikantiyoso
Universitas of Merdeka Malang
Indonesia

Professor Nunuy Nur Afiah
The Indonesian Institute of
Accountants-Accounting Lecturer
Compartment (IAI-KApd)

INVITED SPEAKERS

IMPORTANT DATES

Deadline for Full Paper Submission : September 2nd, 2018
Notification of Paper Acceptance : September 10th, 2018
Deadline for Registration : September 17th, 2018

CONFERENCE FEE

Presenter

- Indonesian Presenter : IDR. 500.000,-
- International Presenter : USD 100

Participant

- Indonesian Participant : IDR. 200.000,-
- International Participant : USD 15

ABSTRACT

This research is a research on empowerment of human resources in regional governance apparatus in achieving the goals stated in the SDGs. Sustainability Development Goals (SDGs) has been implemented using 17 indicators. All of the countries that are members the MDGs declaration have participated in the SDGs declaration, including Indonesia. In general, this research aimed to further analyze the implementation of SDGs implementation with the implementation of human resource empowerment through the application of Participatory Rural Appraisals (PRA). In particular, this research provided input to regional governments in the achievement of SDGs' goals implementation for harmonizing governance regulations and programs with community empowerment. This research was conducted by reviewing the case studies about achievement of SDGs' goals in Batu City. This research was conducted by observing the regional organizations (OPD) related to poverty reduction policies and the readiness of regional governments in implementing SDGs. This research was done by conducting interview, distributing questionnaire and FGD with regional governance officials in the OPD that carried out programs related to achievement of SDGs. The analysis was carried out with descriptive qualitative by combining statistical analysis to strengthen the results of descriptive analysis, namely by using frequency analysis to determine respondent responses to the questionnaire. The results of this research indicated that some of the objectives listed in the SDG document have been successful, however, they were still not optimal, especially in terms of sustainable economic development. This finding encourages the regional government to be more extra in terms of achieving economic equality so that it would also have effect on lower class society.

Keywords: Community Empowerment, SDGs, Poverty Reduction, Participatory Rural Appraisal

1. INTRODUCTION

Sustainability Development Goals is an effort to accelerate the achievement of MDGs targets to become development priorities both nationally and regionally, thus, it requires synergy in planning policies at the national level and at the provincial and regency/city levels. At the regional level, MDGs targets must be integrated into the Regional Medium Term Development Plan (RPJMD) in the
