

3rd ICGSS INTERNATIONAL CONFERENCE of Graduate School on Sustainability

Contemporary Studies on Sustainable Development

September 22-23, 2018

Graduate School Building, University of Merdeka Malang
Terusan Raya Dieng 59 Malang, East Java, Indonesia

1 NO POVERTY

The exploration of sustainable development issues is still very open, especially at the regional level. These issues inspired Unmer Graduate Program in a sustainable manner to develop research and teaching. The conference is based on the belief that there are a large number of contemporary studies that are interdisciplinary and in the form of regional case studies in different countries. We need a range of inputs that will be the foundation for the specific study of environmental engineering, sustainable cities, and natural resource management.

The special themes we prepare are based on several issues in economics, and the field of architecture in order to explore the possibilities of interdisciplinary characters. Authors are invited to submit their papers with the following subthemes (but not limited to);

7 AFFORDABLE AND CLEAN ENERGY

3 CLIMATE ACTION

CALL FOR PAPER
